

RADIA™

EXPLOSION-PROOF, FIVE GALLON GYROSCOPIC MIXER

Gyrosopic mixing action turns containers end-over-end while simultaneously spinning.

5025 RED D MIX™

SHOWN ON OPTIONAL UNIVERSAL RISER LEG

5025 | RED D MIX™

MOST DURABLE EXPLOSION-PROOF, FIVE GALLON GYROSCOPIC MIXER ON THE MARKET

The 5025 Red D Mix contains an advanced direct-drive gear system that allows for optimal power transmission from the gear box to the rotating arm assembly. As a result, the gear design of the 5025 Red D Mix reduces wear items and provides superior repeatability and reliability. The 5025 is capable of mixing a variety of materials for various applications and accepts standard plastic and metal five gallon containers in addition to the container sizes listed below. By utilizing a gyrosopic mixing action, containers are mixed end-over-end while simultaneously spinning.

- ▶ Explosion-Proof motor for use in Class I, Division 1, Groups C & D hazardous (classified) locations.
- ▶ Handles plastic and metal five gallon containers and containers ranging from 13 to 16 inches in height with a maximum diameter of 10 3/4 inches for the bottom plate and a maximum of 12 3/16 inches in diameter for the top plate.
- ▶ Built-in roller assists with loading and unloading.
- ▶ Gear drive design eliminates the replacement of belts, pulleys and friction drives, prevents second axis motion slippage and reduces day-to-day wear for increased longevity of machine.
